A RICH COMPLIMENT.—The JOURNAL editor is just in receipt of a box of peaches from the Peachblow Paradise orchard of Max Pracht, the peach king of southern Oregon. They are of the early Crawford variety, ripe, rich and juicy, average ten inches in circumference and have the high flavor peculiar to that locality. Mr. Pracht is the first grower in the state to adopt the low pruning system, which secures the highest state of perfection, and permits the fruit to be picked while standing on the ground. Damon Bros., at the Blue Front grocery have the exclusive sale of these peaches, and must find them very acceptable to their trade. Thanks, Mr. Pracht.

CONTRACT AWARDED.—John Gray was yesterday awarded the contract for building a dining hall and two cottages at the state insane asylum. Mr. Gray's bid was \$24,437.30. It will be remembered that H. C. Today, the court decided he was a proper subject, and sent him to the asylum with the recommendation that he be admitted.

TOO MUCH SMOKE.

The Valley Filled With Clouds from Mountain Fires.

A man who had smoked 30 years was told the good of the habit was an illusion and debarred from seeing the smoke no pleasure was to be derived from it. As an experiment the man shut himself up in a dark room, which resulted in his throwing off the habit and declaring that the essence of smoking was in seeing it.

People of the Willamette valley now have the sight of smoke without any imaginary pleasurable sensation. There is more than usual throughout the valley. It hovers like a fog over the city and has settled in every canon of the valley and it is becoming more dense as it is wafted by every passing breeze from the mountains to the lower lands. Objects at a distance are no longer discernible and the range of vision is shortened as the smoke becomes thicker.

The presence of smoke in the valley at this season is well understood by old residents. Though more than usual at this season of the year now pervades the air, there is more or less every summer.

Fires are raging in the Coast Range and Cascade mountains at this season which accounts for the smoke that envelops the valley. Many of the fires are started by land clearers who are burning their slashings; but they often start from other sources.

When everything is dry as at present, it is almost impossible to keep the fires from getting a start. Then there are a great many berry pickers in the mountains who, through carelessness, often allow fire to start from their camp, and once started it soon becomes unmanageable. Surveying parties are also sometimes responsible for these fires. Then they are often started for malicious purposes by unprincipled squatters, who would rather see a fine body of timber destroyed than allow any other claimant to possess it. Such crimes are too heinous to go unpunished, but it is a very difficult matter to discover and convict the perpetrators.

It is charged that the latter cause accounts for some of the devastating fires that are now raging in the Cascades. These fires are impoverishing the state and destroying some of its timber as grows in America.

Old settlers can remember when the summer fires were started by the Indians and when it was dangerous to be caught in the path of the flames. In the year 1853, as a man was coming from the vicinity of where Silverton now stands, he was overtaken by a spreading fire and his team of mules burned alive.

The smoke renders the air very unwholesome, and people of the valley will look forward with anxiety for the fall rains this season, to purify the air and dissipate the smoke.

A REGISTERED HOUSE.

"The Fruit Palace" Protected by the State of Oregon.

When a stock raiser has a fine bred animal he at once has its pedigree "registered," and it is no longer an unknown quantity in the public mind. The "Fruit Palace" of Salem, is not exactly live stock, but noneforth its trade-mark cannot be infringed upon by any would-be rival. M. T. Rineaman, proprietor, has had adopted those appropriate words for his permanent trade-mark, and has had the same registered by the state of Oregon. Hereafter anyone using that name without his authority and consent, will be subject to the penalty of the law. Mr. Rineaman has this trade-mark on all his brands of superior goods, and as his trade has enjoyed a wonderful growth under this title, he found it necessary to protect his business by this step. He is to be congratulated upon his enterprise, and is entitled to the fruits of his fruitful energy. Long live the Fruit Palace.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

What German Boys Drink. German boys who work in the open air all day long every day in the year except school days get very thirsty, of course, and must drink a great deal. The German mothers, to keep their boys well and hardy, are very expert in making nourishing drinks for them. Honeyade is the favorite outdoor drink for German boys. It is made in this way: An ounce of ginger is boiled for an hour in 2 quarts of water. Then 2 quarts of cold water, a pound of sugar, an ounce of lime juice and 2 ounces of clear sweet honey are added. When all is cold, the white of an egg is whipped in and a lemon is squeezed over the honeyade jar. The sturdy little Germans are allowed to drink their weight, as the saying is, of this.—Selected.

An Expensive Guest. His dukeship of Veragua was rather an expensive guest, the bills incurred for his entertainment by the nation amounting to about \$40,000. A good story is told in Washington that when his nibe was in Chicago, living in the grandest sort of grand style in the Auditorium, he wrote to the president expressing regret that he would be delayed in reaching Washington for the purpose of paying his respects to the chief executive. An immediate reply was sent excusing him from that perfunctory courtesy and advising him that arrangements had been made for his return to Spain. Whereupon he took the hint and went.—Howard in New York Recorder.

All O.K. "You are old enough to be my father," said the girl to the ancient millionaire who had proposed to her. "Yes, my dear, I know that," he replied, "but I love you so I will do anything in the world for you." "Anything?" she asked, brightening. "Yes, anything." "Well, give me half a million and tell the proposal off. How does that strike you?" She was too flip, and he called the whole business off.—Exchange.

A New Attraction. Pete Amsterdam got married without consulting his parents or friends. After seeing the bride one of his friends asked him: "How did you come to marry that girl? There is nothing attractive about her. She has not got a pretty face; her figure is not good; she is not rich; neither is she intelligent. What do you find attractive about her?" "You ought to see how prettily she sneezes," replied Pete ecstatically.—Texas Siftings.

Unreliable. "Marrar," said Uncle Silas, "we must fire Pete. I gave him a rubber stamp to put the dates on the eggs as the hens laid 'em, as when I got 'em to market this mornin I found 'em'd stamped 'em all 1892."—Harris's Bazar.

NINE DON'TS FOR HORSEMEN.

Don't yell at your horses; it will make you red in the face. Don't hit your horse with the bridle when you turn him loose in the field. Don't let your colt run unhoused all winter to an old straw stack to toughen him. Don't place your main reliance on dogs and stones when driving your horses to or from pasture. Don't forget when dealing with a pack that a little temper is a good thing—so good that you should never lose it. Don't forget when breeding that the law of reproduction, as laid down in the first chapter of Genesis, has not yet been abrogated. Don't pasture your colts, if you can help it, in a field where the fence is just about high enough to teach them to jump nicely. Don't hitch him at first to a load which the other horses cannot pull when he holds back or which makes them hold back when he pulls. Don't neglect to occasionally take an ear of corn along when going through the pasture, whether you wish to catch a horse or not.—Chicago Horseman.
